

## Dating a parcel card

Parcel cards can generally be dated by means of the postmarks used. On cards used between Copenhagen and Greenland postmarks with date were not used except in the latest period from 1936-38. From 1909 and following nearly 30 years cancels have no indication of year. Based on three different elements it is possible to determine which period a card belongs to: 1. postal rate, whether 1905 or 1930 rate.

2. Official office name for the Greenland post office in Copenhagen.

3. Label type

# PARCEL CARDS 1.6.1922 – 1924

Totally 9.000 parcels sent in the period.

Labels type B, ciphers 4 mm.

Numbered 1 – 999 in 15 consecutive rows

Perforated at on two, three or four sides (the label for the parcel is unknown of size).

At least three different rubber cachets K2, b and c are used on the labels:

STYRELSEN AF KOLONIERNE I GRØNLAND

GRØNLAND

In this period, 8 out of 15 rows, label numbers 1-999 were used.

Row 1 seems to have been trial cancelled with K2 (first part of cancel), from around number 200 in this first row it seems that label cancel b is adopted and used for full rows 2 and 3. A new label cancel c was used for rows 4-5-6 and 8. Leaving row 7 to K2 cancel but now only last part of the line cancel is use.

## Cancellations used in the period:

All cancels with inscription (office name) K2:  
”STYRELSEN AF KOLONIERNE I GRØNLAND”

11 or K2.3A(15)  
(STYRELSEN = 15 mm)
